

PROPOSAL PREPARED FOR:

The Principal / Management B.J.S. Rampuria Jain Law College, Bikaner

1. Executive Overview & Architecture

The proposed software is a standalone, offline-first Desktop ERP designed for B.J.S. Rampuria Jain Law College. Operating powered by a local Microsoft SQL Server database, it delivers 100% data privacy with zero monthly cloud recurring costs and high local performance.

&j Single Executable (.exe)

Double-click boot with auto browser launch & zero setup.

Ø=Ý 100% On-Premise Data

Runs locally on college PC. No monthly cloud fees.

Ø=Þáp Auto-DB Initialization

Auto creates admission_db & schemas on first run.

2. Core ERP Modules Included

MODULE NAME	CAPABILITIES & FUNCTIONALITY INCLUDED
1. Executive Dashboard	Real-time admission counter, dynamic fee collection summaries, course analytics (BA-LLB, LLB, LLM, PGD), and live database status monitor.
2. Student Registration	Online/offline entry, auto Registration ID (REG-YYYY-XXXXX) & SR No., document upload checklist (Photo, Marksheet, Aadhar, Caste).
3. Verification Ledger	Independent scroll audit list, student document previewer, approval/rejection decision controls with audit comments.
4. Fees Console & Ledger	Multi-installment fee collection, transaction reference logging, course-wise color badges, printable fee receipt generator, payment history.
5. Library Console	Book inventory catalog, issue & return logging, student fine calculation, catalog search, and borrowing history records.
6. Reports Panel	Daily, monthly, and yearly fee collection summaries, candidate admission logs, dynamic filters (Course, Category, Method), CSV/Print export.
7. Super Admin Control	Multi-staff account creation, Role-Based Access Control (RBAC), and granular feature permission switches for total operational security.

3. Commercial Quotation & Cost Breakdown (Bill)
